

Combination Insect & Pre-emergent Weed Control

30-0-10 220 SGN
 .058 Acelepryn® + 0.15 Dimension®

Award Turf Fertilizer containing Acelepryn® and Dimension® (CAD) combines two premier active ingredients in one great product. Dimension's extended application window provides season-long control of crabgrass and suppresses other listed annual grasses and broadleaf weeds. Acelepryn, recognized by the EPA as a reduced risk pesticide, controls both surface and sub-surface feeding insects for season-long grub control. For maximum effectiveness, apply at the higher listed rates for preventative and curative control.

USE SITES

Commercial Lawns
 Industrial Facilities
 Residential Turfgrass
 Business/Office Complexes
 Parks
 Schools
 Golf Courses
 Athletic Fields
 and Other Landscaped Areas

INSECTS CONTROLLED

White Grubs
 Annual Bluegrass Weevil
