DOWN TO -5°F

❄️ FIVE BELOW IS GENTLE
& EASY TO USE

❄️ CONTAINS MAGNESIUM & CALCIUM
CHLORIDE TO HELP MELT AT COLDER
TEMPERATURES

5 BELOW

DIRECTIONS

First remove excess loose snow or melted ice and slush from surface. Spread the product evenly over surface at approximately 2 – 8 lbs / 1000 square feet, or ¼ - ½ cup per square yard.

PRECAUTION

Do not use on concrete less than 1 year old. Deicers will not chemically attack concrete, however, natural and deicer enhanced freeze / thaw cycles can cause damage to poor quality concrete. This product should not be used on precast concrete steps, precast masonry walks or steps, brick, exposed aggregate, or on any questionable quality concrete. Also, deicing materials can cause damage to vegetation when they are placed on or very near the vegetation itself. Damage is more likely when products are over applied, so use correct application rates and placement of product on surface.

CAUTION

Keep out of reach of children. Only use for melting ice and snow. This product may cause skin irritation for some individuals. If skin irritation occurs, rinse with water, remove and wash contaminated clothing, and consult physician. This product may cause eye irritation. If eye irritation occurs, flush with water for 15 minutes and call physician. Harmful if swallowed. If ingested, give water, induce vomiting and call physician immediately.

NOTICE

No warranty expressed or implied concerning the use of this product is made by the manufacturer or seller other than for the purposes indicated on the label. Manufacturer or seller is not liable for any injury or damage caused by this product due to misuse, mishandling or any application not specifically described and recommended on the label.
