SGXL

INDUSTRY-LEADING CAPACITY AND VERSATILITY ON A MULTIFUNCTION APPLICATOR

The SGXL is a 120-gallon zero-turn stand-on sprayer featuring a 14-foot, four-section, rear-mounted breakaway boom with electric hydraulic lift actuators that provide superior visibility to allow operators to monitor every nozzle's performance. Other standard features include a 100-foot hose reel, 2.5-gallon foam marker, hillside assist system, pressure control system, and LED light bar.

Its size and versatility make the SGXL the perfect solution for many golf courses, sports fields, and commercial properties. Its 12-MPH transport speed and 27-GPM centrifugal pump save time, at a time when efficiency is everything.

Optional features include a granular kit with a 350-pound hopper and lift system to convert the SGXL to a high-capacity spreader.

Images shown are of a prototype and the production SGXL may differ slightly from the pictures. 350-pound hopper kit with lift system is an attachment option and does not come standard.

DIMENSIONS

Width:	62"
Length:	91"
Height:	74" with boom up, 58" with boom down
Front Tire:	18x9.5x8
Rear Tire:	26x14x12
Weight:	2,220 lbs.

SPECIFICATIONS

Spray Capacity:	120 gal.
Spray Width:	14'
Hose Reel:	100'
Engine:	35-HP Kawasaki
Fuel Capacity:	8 gal.
Transport Speed:	12 mph
Rate Production:	120,000 sq. ft. per fill, based on 1-gal. spray nozzles
Hopper Capacity (with kit)*:	350 lbs.
Variable Spread Width (with kit)*:	25'
