

Sempre Verde™

Turf & Ornamental Paint

FEATURES AND BENEFITS

Sempre Verde is a premier turf paint with sticker technology that provides a natural green color.

- The sticker technology in Sempre Verde:
 - Enhances spray coverage by increasing the adhesion of the paint to the turf leaf, resulting in a more uniform color.
 - Increases the retention and longevity of the paint on the turf leaf, resulting in longer lasting color.
 - Reduces the rub-off potential on clothing, shoes/cleats, or skin. (However, it is recommended to let dry prior to traffic.)
- Sempre Verde has increased color duration and fade resistance compared to competitive products.
- End users have stated that Sempre Verde goes into solution more quickly and uniformly than competitive products.
- Sempre Verde allows end users to lengthen the time of play on their golf course or athletic field by providing a natural green turf surface in the fall or winter.

BEST MANAGEMENT PRACTICES FOR PAINT APPLICATIONS

1. Use flat fan spray nozzles -110° at no more than 20" spacing between nozzles.
2. Set aside specific nozzles for paint use only. May use "old" greens nozzles for this purpose.
3. Remove nozzle screens prior to paint application.
4. Check often to ensure nozzles are spraying uniformly.
5. Use 40+ GPA spray volume as more water can equate to better coverage.
6. A 1/10 mix ratio is recommended for best results, but refer to the label for specific dormant or semi-dormant use rates. A more concentrated spray solution will equate to a darker color.
7. Maintain turf to 1" or less, if possible, based on species, for the best results.
8. Ensure surface is free of any debris before application, such as leaves, clipping, divots, etc.
9. Start applications from the middle of the application area and work out towards the edges of the application area in a rectangle-like pattern, followed by a clean-up pass for best results.
10. Keep spray solution agitating in sprayer for entire application.
11. Clean up sprayer with Erase™ Tank Cleaner immediately after application, do not let paint dry inside tank, booms, or nozzles.

USE RATES

Dormant Turf

Sempre Verde	40 GPA		60 GPA	
	MIN	MAX	MIN	MAX
fl oz/ 1,000 sq ft.	16.0	32.0	10.5	21.5
GL/acre	5.0	10.0	5.0	10.0

Semi-Dormant Turf

Sempre Verde	40 GPA		60 GPA	
	MIN	MAX	MIN	MAX
fl oz/ 1,000 sq ft.	11.0	16.0	7.5	10.5
GL/acre	3.5	5.0	3.5	5.0

Use rates will depend on turf or plant species, height of cut, growing conditions and desired color.
