SureGuard® SC

FLUMISHIELD® SC

HERBICIDE

Flumishield SC is a non-selective, pre- and post-emergent herbicide that provides long lasting residual control of grass and broadleaf weeds.

Features & Benefits

- Broad spectrum pre-emergent and post-emergent weed control
- Long residual pre-emergent control in beds and bare ground areas
- Mix with glyphosate or glufosinate for quick knockdown with residual control in and around established landscape plants
- Labeled for many sites
- Provides Pre- and Post- control of Poa annua and winter annual broadleaf weeds on dormant bermudagrass

Effective Against

Barnyardgrass*, Bittercress, Bluegrass, Chickweed, Crabgrass*, Dandelion*, Eclipta, Field pennycress, Florida beggarweed, Florida pusley, Foxtail* , Goosegrass*, Groundsel, Kochia, Lambsquarters, Morningglory, Nightshade, Palmer amaranth, Pigweed, Pineapple-weed*, Prickly sida (teaweed), Puncturevine, Ragweed, Redmaids, Russian thistle, Shepherd's-purse, Spiny amaranth, Spurge, Velvetleaf, Waterhemp, Yellow rocket *Pre-emergent control only

Use Sites

Dormant Bermudagrass on residential sites, golf courses, and sod farms; around established woody ornamentals in landscapes, container and field grown conifers and deciduous trees (including Christmas trees) **Non-crop areas:** around buildings, fencerows, gravel surfaces, driveways, ground mats and pads

Mode of Action

A Group 14 N-phenyl-imide herbicide. The mode of action in this chemistry family is inhibition of protoporphyrinogen oxidase (PPO), an enzyme necessary for chlorophyll and heme biosynthesis. Formulated as a soluble concentrate, it contains 4lbs./gal active ingredient of Flumioxazin.

Active Ingredient

42% Flumioxazin

Packaging

8 fl oz; 12/case
64 fl oz; 4/case

Always read and follow product label directions.
