

BAIT OPTIONS

TOP GUN ALL-WEATHER BAIT BLOCK

Product Description

- 0.5-oz Block sizes fit all bait stations.
- Neurotoxin bromethalin (0.01%) prevents rodent feeding after lethal dose (average time to death: 1-2 days).
- Stop-feed action means rodents need only consume one lethal dose and all feeding ceases, automatically reducing the amount of bait available for non-target consumption.
- An ideal bait for cleanout accounts and a perfect maintenance bait.

#750
4-lb pail

PEANUT BUTTER BAIT BLOCK

Product Description

- 1-oz Block sizes fit all bait stations.
- First-generation anticoagulant diphacinone (0.005%) has been a time-tested, proven active ingredient.
- Highly palatable and a great maintenance bait.
- Perfect product to incorporate into any rodent baiting program.
- New aromas attract rodent's attention, so changing bait can contribute to your success.
- 9-lb pail fits in standard size truck tool box.

THE TRAP THAT KILLS
JAWZ
TIME AND TIME AGAIN™

FEATURE COMPARISON

Instructions

Place tamper-resistant bait stations for rates 15–30 ft apart, or every 8–16 ft apart for mice.* Always place your bait stations along the walls where rodents run. Store your bait out of reach from children, pets, and all potential non-target consumers.

For Best Results

Wear waterproof gloves when handling bait. Odors that we carry on our hands and clothing can easily be transferred to bait, making it less likely to be consumed. Store your bait away from other pesticides and chemical odors. Baits can also absorb odors from these and other products. For your safety and others', use with Rodent Rock 2G bait station. Ask your sales rep for more info!

BAIT STATION OPTIONS

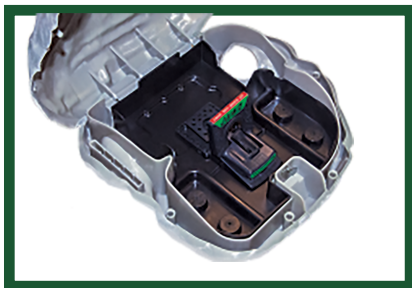

RODENT Rock™ 2_G

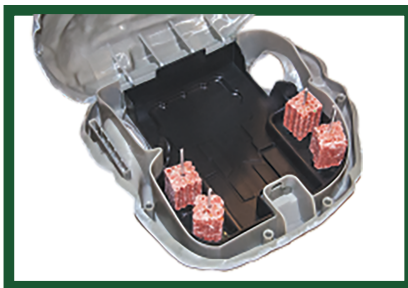

- The discreet bait station that really performs!
- Dual-entry allows rats and mice to feed from either side
- Press-and-release lock system provides added security
- Compatible with JAWZ traps, or place chosen Bait Block directly inside

#928GR-PAV
(Paver; weighted)

JAWZ Snap Trap

BAIT BLOCK

GOLD KEY TAMPER-RESISTANT MINI BAIT STATION FOR MICE

- Holds any type of rodenticide and includes multiple mouse-size entrances to eliminate mice and other small pests without snap traps or open poisons.
- Enclosed system deters consumption by pets or children.
- The solid lid is ideal for discreet capture and poison of larger mice and other pests.
- Can be used indoors or outdoors at home or commercially.

THE PERFECT ADD-ON SERVICE

Rodent control is the perfect add-on service for residential customers.*
The kit includes:

- 4 Rodent Rock bait stations (with paver)
- 1 Bucket of Bait Block
- 1 Pack of traps

Complete a brief property assessment, set up one box on each side of your client's house, and let the traps do the rest. Follow up monthly for the first few months to ensure the bait is being eaten. Eventually, you can transition to a quarterly maintenance cycle. Avoid extra trips by rolling your rodent control maintenance into regularly scheduled service.

**Check with local and state regulatory commissions to ensure that you're licensed to install these traps*
