

KASTELLA

HydroPak® Kastella is used on high-performing playing surfaces to aid in the prevention of localized dry spot (LDS) and improve volumetric water content across all soil types.

PRODUCT DESCRIPTION

HydroPak® Kastella is a blend of surfactants engineered to produce optimal playing surfaces while maintaining uniform hydration in the root zone. Kastella is equally effective in preventing and curing localized dry spot (LDS) over longer periods of time.

- Provides high performing playing surfaces
- Prevents and cures LDS
- Improves irrigation efficiency, which saves water and money
- Long-lasting for desired results over longer periods of time

CONTAINS NON-PLANT FOOD INGREDIENT(S)

ACTIVE INGREDIENTS

Proprietary blend of oxirane, methyl-, polymer with oxirane and alcohol ethoxylates 100.0%

PRODUCT INFORMATION:

Packaging: 2 x 2.5 Gallon Case

DIRECTIONS FOR USE

Kastella is a combination of surfactants. Always mix and apply Kastella in accordance with label instructions.

Cool Season Turf (Zones 1-6)	<p>Apply two applications of 8 fl oz each in 1 to 2 gallons of water per 1,000 sq ft at a 30 day interval to relieve the symptoms of LDS for 4 to 6 months.</p> <p>Apply 4 to 6 fl oz in 1 to 2 gallons of water per 1,000 sq ft every 30 days, if shorter application intervals are desired.</p>
Cool or Warm Season Turf (Zones 1-10)	<p>Apply 4 to 8 fl oz in 1 to 2 gallons of water per 1,000 sq ft every 30 to 60 days.</p>

Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories, LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
