

Armament[®] Concentrate

0-0-9

Foliar-Pak[®] Armament Concentrate keeps nutrients in suspension, preventing interactions in the spray tank and improving nutrient availability.

PRODUCT DESCRIPTION/BENEFITS

Armament technology is a patented, biodegradable nutrient enhancer. This high molecular weight structure holds a large population of negative charges. These negative charges gently complex positively charged metals, keeping them in solution.

Apply Foliar-Pak Armament Concentrate with routine fertilizer applications for deeper, stronger roots, more resilient turf and longer lasting color.

- Foliar-Pak Armament Concentrate increases nutrient uptake and ensures predictable nutrient availability.
- Foliar-Pak Armament Concentrate unlocks the tied-up nutrients that already exist in the soil, turning them into plant usable nutrition.
- Armament technology prevents nutrient-to-nutrient interactions and chemical changes in the spray tank and the soil.
- Completely biodegradable and will not accumulate in the environment.
- Acting as a buffer, Foliar-Pak Armament Concentrate can be used in high pH and hard water.

GUARANTEED ANALYSIS

Soluble Potash (K₂O)..... 9.0%

Derived from: potassium acetate

PRODUCT INFORMATION:

Weight per Gallon at 68°: 10.59 lbs (4.8 kg)
pH: 7.2

GENERAL USE GUIDE

This product is tank mix compatible with most fertilizers and pesticides. However, due to variability in water sources and pesticide formulations a compatibility test is recommended.

| | |
|---------------------------------|--|
| <p>Sports Turf Lawns</p> | <p>Cool Season Turf: For optimal results apply a total of 40-60 fl oz per acre per season using any desired number of applications.</p> <p>Warm Season Turf: For optimal results apply a total of 60-80 fl oz per acre per season using any desired number of applications.</p> <p>May be tank mixed with other soil applied products. Dries safely on the leaf surface, but for best results water into soil profile as soon as possible.</p> |
| <p>Ornamentals</p> | <p>Mix 16 to 32 fl oz in 100 gal of water. Spray to the point of runoff or drench into soil.</p> |
