SOLUTIONS.**

Program Worksheet | Product Menu

Program Worksheet

DIRECTIONS:

This program worksheet and product menu will help you create a fertility program that delivers precisely what the plant needs, when it needs it, and in the best plant-available form.

To build your fertility program, select one or more products from each category: L-Activator Foundation Amino, L-Activator Amino Minors, Specialty Nutrition, and Armament.

Use the Foliar-Pak Menu to select the right product for your specific turf needs.

AGRONOMIC OBJECTIVES:

--

SOIL & WATER TEST ISSUES:

--

L-ACTIVATOR FOUNDATION AMINO

Choose foundation and NPK sources based on soil tests and seasonal conditions.

Select at least one L-Activator Foundation Amino product:

L-ACTIVATOR AMINO MINORS

Choose secondary and micronutrients based on soil tests and seasonal needs.

Select at least one L-Activator Amino Minors product:

SPECIALTY NUTRITION

Choose bionutrients and plant extracts to complete your program.

Select at least one Specialty Nutrition product:

ARMAMENT

Prevent nutrient-to-nutrient interactions and precipitations in the spray tank and soil.

Select at least one Armament product:

Foliar-Pak Menu

L-ACTIVATOR FOUNDATION AMINO

Amino package to maximize nitrogen assimilation, increase chlorophyll production, and build plant energy

Foundation Forty 40% amino acid supplement for periods of intense stress	14-2-4 Balanced nutrient ratio and with two week N availability	11-0-11 1:1 ratio of N:K two week availability	A.S. Fusion 7-0-0 Ammonium sulfate for cool season uptake	1-0-15 High K fertilizer
--	---	--	---	------------------------------------

L-ACTIVATOR AMINO MINORS

Amino package that protects chlorophyll and builds anti-stress compounds

Manganese 3% Mn, 1% Mg, and 5% amino acids	Carbosential Fe Turbo 5% Fe and 2.5% amino acids	Minors Fe, Mg, Mn, Zn, B and 5% amino acids	Calcium 7-0-0 with 7% Ca and 7% amino acids
--	--	---	---

SPECIALTY NUTRITION

Provides extra plant boost with seaweed, humic acids and amino acids.

Holganix PB1 <small>PROTECTED BY Armament</small> 2-0-0 Probiotic for strengthening plant immune system and improving nutrient utilization	Bio Drive Humic acid supplement	Promote 4-0-1 Improve rooting and build antioxidants for better stress tolerance	Bio Sea Concentrated, cold process Norwegian seaweed supplement
---	---	--	---

ARMAMENT

Prevents nutrient-to-nutrient interactions and chemical changes in the spray tank and soil and increases nutrient uptake by 20-30%

Armament MKS 0-0-5 with Mg and S, protected by Armament to prevent adverse nutrient interactions and increase nutrient uptake	Armament P 3-12-2 protected by Armament to improve efficiency and increase nutrient availability	Armament K 0-0-24 with Armament to unlock the tied-up nutrients that already exist in the soil, turning them into plant usable nutrition
