

# Program Worksheet

## DIRECTIONS:

This program worksheet and product menu will help you create a fertility program that delivers precisely what the plant needs, when it needs it, and in the best plant-available form.

To build your fertility program, select one or more products from each category: L-Activator Foundation Amino, L-Activator Amino Minors, Specialty Nutrition, and Armament.

To complete this worksheet from a mobile device, you will need to use a PDF reader app.

Use the Foliar-Pak Menu to choose the right product for your specific turf needs.

### AGRONOMIC OBJECTIVES:

--

### SOIL & WATER TEST ISSUES:

--

### L-ACTIVATOR FOUNDATION AMINO

Choose foundation and NPK sources based on soil tests and seasonal conditions.

Select at least one L-Activator Foundation Amino product:

### L-ACTIVATOR AMINO MINORS

Choose secondary and micronutrients based on soil tests and seasonal needs.

Select at least one L-Activator Amino Minors product:

### SPECIALTY NUTRITION

Choose bionutrients and plant extracts to complete your program.

Select at least one Specialty Nutrition product:

### ARMAMENT

Prevent nutrient-to-nutrient interactions and precipitations in the spray tank and soil.

Select at least one Armament product:

# Foliar-Pak Menu

## L-ACTIVATOR FOUNDATION AMINO

Amino package to maximize nitrogen assimilation, increase chlorophyll production, and build plant energy

<b>Foundation Forty</b> 40% amino acid supplement for periods of intense stress	<b>14-2-4</b> Balanced nutrient ratio and with two week N availability	<b>11-0-11</b> 1:1 ratio of N:K two week availability	<b>A.S. Fusion</b> 7-0-0 Ammonium sulfate for cool season uptake	<b>1-0-15</b> High K fertilizer
--	---	--	---	------------------------------------

## L-ACTIVATOR AMINO MINORS

Amino package that protects chlorophyll and builds anti-stress compounds

<b>Manganese</b> 3% Mn, 1% Mg, and 5% amino acids	<b>Carbosential Fe Turbo</b> 5% Fe and 2.5% amino acids	<b>Minors</b> Fe, Mg, Mn, Zn, B and 5% amino acids	<b>Calcium</b> 7-0-0 with 7% Ca and 7% amino acids
--	--	---	---

## SPECIALTY NUTRITION

Provides extra plant boost with seaweed, humic acids and amino acids.

<b>Holganix PB1</b> <small>PROTECTED BY Armament</small> 2-0-0 Probiotic for strengthening plant immune system and improving nutrient utilization	<b>Bio Drive</b> Humic acid supplement	<b>Promote 4-0-1</b> Improve rooting and build antioxidants for better stress tolerance	<b>Bio Sea</b> Concentrated, cold process Norwegian seaweed supplement
---	---	--	---

## ARMAMENT

Prevents nutrient-to-nutrient interactions and chemical changes in the spray tank and soil and increases nutrient uptake by 20-30%

<b>Armament MKS</b> 0-0-5 with Mg and S, protected by Armament to prevent adverse nutrient interactions and increase nutrient uptake	<b>Armament P</b> 3-12-2 protected by Armament to improve efficiency and increase nutrient availability	<b>Armament K</b> 0-0-24 with Armament to unlock the tied-up nutrients that already exist in the soil, turning them into plant usable nutrition
