

Program Worksheet

DIRECTIONS:

This program worksheet and product menu will help you create a fertility program that delivers precisely what the plant needs, when it needs it, and in the best plant-available form.

To build your fertility program, select one or more products from each category: L-Activator Foundation Amino, L-Activator Amino Minors, Specialty Nutrition, and Armament.

To complete this worksheet from a mobile device, you will need to use a PDF reader app.

Use the Foliar-Pak Menu to choose the right product for your specific turf needs.

AGRONOMIC OBJECTIVES:

--

SOIL & WATER TEST ISSUES:

--

L-ACTIVATOR FOUNDATION AMINO

Choose foundation and NPK sources based on soil tests and seasonal conditions.

Select at least one L-Activator Foundation Amino product:

L-ACTIVATOR AMINO MINORS

Choose secondary and micronutrients based on soil tests and seasonal needs.

Select at least one L-Activator Amino Minors product:

SPECIALTY NUTRITION

Choose bionutrients and plant extracts to complete your program.

Select at least one Specialty Nutrition product:

ARMAMENT

Prevent nutrient-to-nutrient interactions and precipitations in the spray tank and soil.

Select at least one Armament product:
