

Micros Plus

Foliar-Pak® Micros Plus provides foliar delivery of key nutrients that promote improvement for overall plant health and stress tolerance.

PRODUCT DESCRIPTION/ BENEFITS

- Foliar-Pak® Micros Plus enhances density, rooting, and recovery. Great for use on transitions and turf establishment.
- Foliar-Pak® Micros Plus targets cell division, chlorophyll formation, increased nutrient mobility and utilization, while improving metabolism of carbohydrates and nitrogen.
- At low use rates, this bio-based formulation can be used as a valuable source of readily available micro-nutrients and plant growth hormones.
- Foliar-Pak® Micros Plus can be tank mixed with Foliar-Pak® Promote or Foliar-Pak® Bio Sea for greater biological enhancement and more balanced turf recovery.

GENERAL USE GUIDE

Prior field use of this product indicates that care should be taken to ensure correct rates and cultural practices are in place. Product may decrease turf regulator response if used improperly. Read the label carefully and consult your Advanced Turf Solutions or ENP representative before applying this product on creeping bentgrass. Shake product prior to use. Maintain agitation during mixing and application.
