- **Reduce Chemicals**

## **MAXIMIZING AGRONOMICS & ECONOMICS FOR THE ENVIRONMENT**

### **LAWN CARE**

### **TREES & SHRUBS**

### **GOLF COURSES**

### **AGRICULTURE**

Advanced Turf Solutions has partnered with Holganix to offer customers a cost-effective, environmentally friendly lawn care solution. Holganix, (whole-gan-x) a proven 100% organic bio-nutritional product, promotes strong plant health by naturally increasing resistance to disease and insect damage through significant root and cell wall development. It is a cost-effective, natural way to get thick, green, healthy turf, trees, and ornamentals while reducing the need for traditional fertilizers and pesticides by 50-75%.

Holganix is a patent pending, proprietary product that uses active bionutrients to naturally promote sustained plant wellness. The product turns a small amount of fertilizer and pesticides into the most effective turf and ornamental treatment available.

You can control fertilizer costs, differentiate your business, reduce your environmental footprint ... and get great results.

- **Deeper, denser root systems**
- **Pesticide reduction**
- **Disease suppression**
- **Fertilizer reduction**
- **Improve soil biology**
- **Control fertilizer costs**
- **Stronger seedlings**
