

SYNTRYX™

Pigment Plus Spray Activator

Foliar-Pak® SYNTRYX™ is a unique combination of pigments and adjuvants.

WHAT DOES SYNTRYX™ DO?

SYNTRYX improves turf aesthetics and masks plant injury or discoloration. Containing SYNC® Fungicide Activator, SYNTRYX improves spray coverage and absorption, improving the performance of SYNTRYX and its tank mix partners. SYNTRYX also provides visual spray pattern identification to improve application accuracy.

WHAT MAKES SYNTRYX™ DIFFERENT?

SYNTRYX is the only turf pigment containing SYNC fungicide activator, an adjuvant known to improve the performance of fungicides and plant growth regulators.

BENEFITS

- Attractive playing surfaces
- Improved tank mix partner performance
- More accurate spray applications
- Backed by Advanced Turf Solutions and Precision Laboratories

PRINCIPAL FUNCTIONING AGENTS

Water.....	75.0%
Proprietary blend of adjuvants.....	14.0%
Pigments.....	12.0%
Total	100.0%

All ingredients are approved for use under CRF 40, 180.1001 (c)

USE RATE:

Apply 48 to 64 ounces of SYNTRYX in 50 gallons of spray solution per acre. Spray volume, nozzle selection, turf type or condition may affect the color intensity of the application. Adjust the use rate to achieve desired results.

MIXING:

In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:

1. Compatibility agent and/or antifoam, if needed.
2. AMS, dry formulations (WP, DF, WDG, SP), and dry drift retardants.
3. Dry soluble and suspension fertilizers / micronutrients.
4. Liquid drift retardants and flowable formulations (F & FL) (SYNTRYX).
5. Liquid concentrates, suspension and microencapsulated (LC, SC, ME).
6. Emulsifiable concentrates (E, EL or EC).
7. Solutions and soluble liquids (S or SL).
8. Liquid micronutrients and fertilizers.
9. Water conditioners and other adjuvants (COC, HSOC, MSO, NIS).
10. Finish filling to desired spray volume level and continue agitation.

PACKAGING:

2 x 2.5 gallons (18.92 liters)

NOTE: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories, Inc. warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
